Mandatory Reporting

In order to protect children whose health and well-being may be adversely affected through the infliction, by other than accidental means, of harm through physical injury or neglect, mental injury, sexual abuse, sexual exploitation, or maltreatment, the legislature requires the reporting of these cases by school teachers and school administrative staff members of public and private schools. It is not the intent of the legislature that persons required to report suspected child abuse or neglect under this chapter investigate the suspected child abuse or neglect before they make the required report to OCS. Reports must be made when there is a reasonable cause to suspect child abuse or neglect in order to make state investigative and social services available in a wider range of cases at an earlier point in time, to make sure that investigations regarding child abuse and neglect are conducted by trained investigators, and to avoid subjecting a child to multiple interviews about the abuse or neglect. Protective services will be made available in an effort to:

1. prevent further harm to the child
2. safeguard and enhance the general well-being of children in this state
3. preserve family life unless that effort is likely to result in physical or emotional damage to the child

- Immediately notify your site administrator, OCS, and other agencies as appropriate
- Document, document, document!

Connecting with Students

“Kenai Peninsula Borough School District administration appreciates the effort and commitment our professional staff members make to ensure the best educational experience for our students. This brochure serves as a reminder of guidelines to be used when communicating verbally and electronically with all of our students. Thank you for everything you do.”

-- Sean Dusek, Superintendent

Kenai Peninsula Borough School District
907.714.8888
148 N. Binkley Street
Soldotna, Alaska 99669
Students who are under your care must be supervised at ALL times
If a student is struggling with a personal issue, refer him or her to the appropriate resource (school counselor, outside agency)
Work with students in highly visible environments, except as may be required to safeguard student privacy or confidentiality
Secure district and parental approval regarding all school-sponsored activities, including school activities occurring off of school property
Ensure appropriate inspections, reviews and documentation are completed prior to off-site events, such as field trips or sporting events
Immediately report to your supervisor any situation that may potentially lead to allegations of misconduct or misunderstanding
Hugs are a common occurrence, especially at the elementary level. Use developmentally and age-appropriate guidelines to direct your actions

Do not engage in activities that may reasonably raise concerns as to propriety or are directed towards developing a relationship with a student beyond the recognized boundaries of a teacher-student relationship regardless of the student’s age
Do not place yourself in situations which could be construed as posing a risk to the student or facilitating an inappropriate relationship with students
Be sure that your interactions in the community reflect a high level of professionalism

Alaska Safe Children’s Act
In 2015 the Alaska legislature instituted Alaska Safe Children’s Act incorporating additional trainings and education related to sexual abuse and sexual assault, dating violence and abuse awareness prevention which teaches:

- Students in Pre-K to 12th grade must be taught age-appropriate techniques to recognize child sexual abuse and to tell a trusted adult
- Parents and guardians must receive information about the warning signs of child sexual abuse, resource referrals, and information to support families or children who experience sexual abuse
- School personnel must be regularly trained to identify and report child sexual abuse

Professional Teaching Practices
The Professional Teaching Practices Commission’s (PTPC) intent is to serve as a preventative and positive force in helping enhance the professional performance of all educators so that the public’s right to the best education possible for all of Alaska’s students is adequately protected.
In 1966, the education profession in the state of Alaska was granted the right and responsibility to define and to enforce ethical standards of its members. The Alaska Legislature established and empowered a nine-member commission to impose sanctions against the certificates of educators who engage in illegal, immoral, or unethical conduct.
